SUPPLEMENTARY INFORMATION:

Nominations are being sought for individuals who have the expertise and qualifications necessary to contribute to the accomplishment of the Committee's objectives. Nominees will be selected based on expertise in the fields of microbiology (including bacteriology, mycobacteriology, mycology, parasitology, and virology), immunology (including histocompatibility), chemistry, hematology, pathology (including histopathology and cytology), or genetic testing (including cytogenetics); from representatives in the fields of medical technology, bioinformatics, public health, and clinical practice; and from consumer representatives. Federal employees will not be considered for membership. Members may be invited to serve for up to four-year terms.

The selection of members is based on candidates' qualifications to contribute to accomplishing CLIAC objectives (<https://www.cdc.gov/cliac/>).

The U.S. Department of Health and Human Services (HHS) policy stipulates that committee membership be balanced in terms of points of view represented and the Committee's function. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens and cannot be full-time employees of the U.S. Government. Current participation on federal workgroups or prior experience serving

on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships.

Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning and annually during their terms. CDC reviews potential candidates for CLIAC membership each year and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of the term in July or as soon as the HHS selection process is completed. Note that the need for different expertise varies from year to year, and a candidate who is not selected in one year may be reconsidered in a subsequent year. Candidates should submit the following items:

- Current curriculum vitae, including complete contact information (telephone numbers, mailing address, e-mail address)
- At least one letter of recommendation from person(s) not employed by the U.S. Department of Health and Human Services. Candidates may submit a letter(s) from current HHS employees if they wish, but at least one letter must be submitted by a person not employed by an HHS agency (e.g., CDC, NIH, FDA).

Nominations may be submitted by the candidate or by the person/organization recommending the candidate.

The Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign *Federal Register* notices pertaining to announcements of meetings and other committee management activities for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.
